CHALLENGE

Streamline financial reporting to drive efficiencies

As Opera continues to grow and its finance and reporting team is facing an ever-expanding scope of responsibilities and tight deadlines, they needed a future-proof software solution for SEC filings and ESG reporting. The software would be faster, smarter and more secure - helping them streamline their processes, improve collaboration and ensure accuracy.

SOLUTION

ActiveDisclosure is more efficient, accurate and collaborative

Opera was looking for an intuitive, easy-to-use reporting software that would help streamline their process with real-time collaboration and data linking. ActiveDisclosure, with Excel integration, helped ensure data accuracy. XBRL tagging helped verify the accuracy and completeness of their annual report on Form 20-F tagged in Inline XBRL. The ability to collaborate in the same document enabled stakeholders to edit and review documents without having to rely on third parties. ActiveDisclosure has been a trusted software solution for both their SEC filings and statutory financial reporting.

“

We are pleased that ActiveDisclosure has helped simplify our SEC reporting function. Linking to our Excel spreadsheets enables us to automatically update our documents with changes to our financial data, ensuring accuracy, consistency, and reduced manual controls. Real-time collaboration has allowed us to streamline workflows and speed up the completion of our tasks. DFIN's team of SEC experts and financial professionals ensured that we were ready to start using ActiveDisclosure one week after starting the onboarding process.”
