CHALLENGE

Raising capital while protecting valuable intellectual property

Solutions for capturing carbon generated by industrial plants are essential for achieving sustainability goals. Yet, developing the required technologies and deploying them in the field is expensive.

Svante needed a highly secure platform to protect innovative assets while raising capital from leading venture firms, strategic partners, and government agencies worldwide.

SOLUTION

Venue protects assets during global fundraising

Fundraising involves sharing and controlling proprietary, sensitive, and confidential information with external stakeholders in different locations. Venue corporate repositories and virtual data rooms offer the security and privacy safeguards you need and want to protect your information assets. That's why Venue is trusted globally by Fortune 1000 companies, startups, PE firms, investment banks, and government agencies.

The screenshot shows a web-based document management interface for DFIN Venue. The top navigation bar includes 'Documents', 'Search', and 'Reports'. Below the navigation is a toolbar with icons for delete, upload, download, and search. The main area is titled 'DFIN Solutions' and displays a list of documents. The columns in the list are 'INDEX', 'TYPE', 'NAME', 'ACCESS', 'FILE SIZE', 'PAGES', and 'LAST UPDATED'. The list contains 17 entries, each with a small thumbnail icon and a file name like 'Vivamus sagittis' or 'Cras mattis'. The 'LAST UPDATED' column shows dates from 10/15/20 to 12/16/20.
