CHALLENGE

After going through couple of internal funding rounds, Liberis was now at a stage where the need for a secure data sharing platform was a requirement.

For their first external funding round to be successful they needed to convince potential investors that they were ready to take their company to the next level by showing they had invested in the proper tools.

It was time for them to invest in a stakeholder recognised, industry leading data room platform.

SOLUTION

With a quick and straight forward implementation process, Venue virtual data room was the best option for Liberis's need. The team loved the intuitiveness of the platform and the permissioning capability that allowed them to grant and revoke access to multiple users seamlessly. The ability to share documents online securely and rapidly with potential investors played a pivotal role in the success of their first external funding round.

“

We couldn't be happier with the support and guidance we received from DFIN throughout our funding and debt-raising rounds. Their team are knowledgeable, professional, and always available to answer our questions and provide insights. With their help, we secured the funding we needed to grow our business and achieve our goals. We appreciate their expertise and dedication and would highly recommend their services to any company looking to navigate the complex world of finance.”
