

Accelerate Basel III Reporting with Audit-Ready, Controlled Disclosures

Pillar 3 reporting under Basel III is one of the most demanding obligations for financial institutions, requiring tightly controlled disclosures across capital, RWAs, and multiple risk types. The process combines complex data, narratives, and multi-stakeholder approvals, creating significant coordination challenges. ActiveDisclosureSM centralizes and streamlines this workflow, automating controls to reduce risk while improving transparency, auditability, and speed to disclosure.

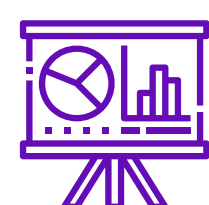

CREATE A CONTROLLED REPORTING ENVIRONMENT

Bring capital, risk, and disclosure data into a single governed platform — eliminating version risk and fragmented workflows across Excel and Word.

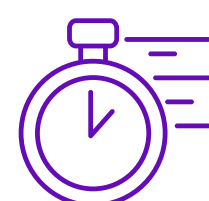

STANDARDIZE AND REUSE DISCLOSURES

Use linked data, reusable templates, and governed workflows aligned to Basel frameworks, ensuring consistency across every reporting cycle.

IMPROVE ACCURACY & REDUCE RISK

Create beautiful and informative financial documents, reports, and presentations, including investor materials, executive briefings, board presentations, and more.

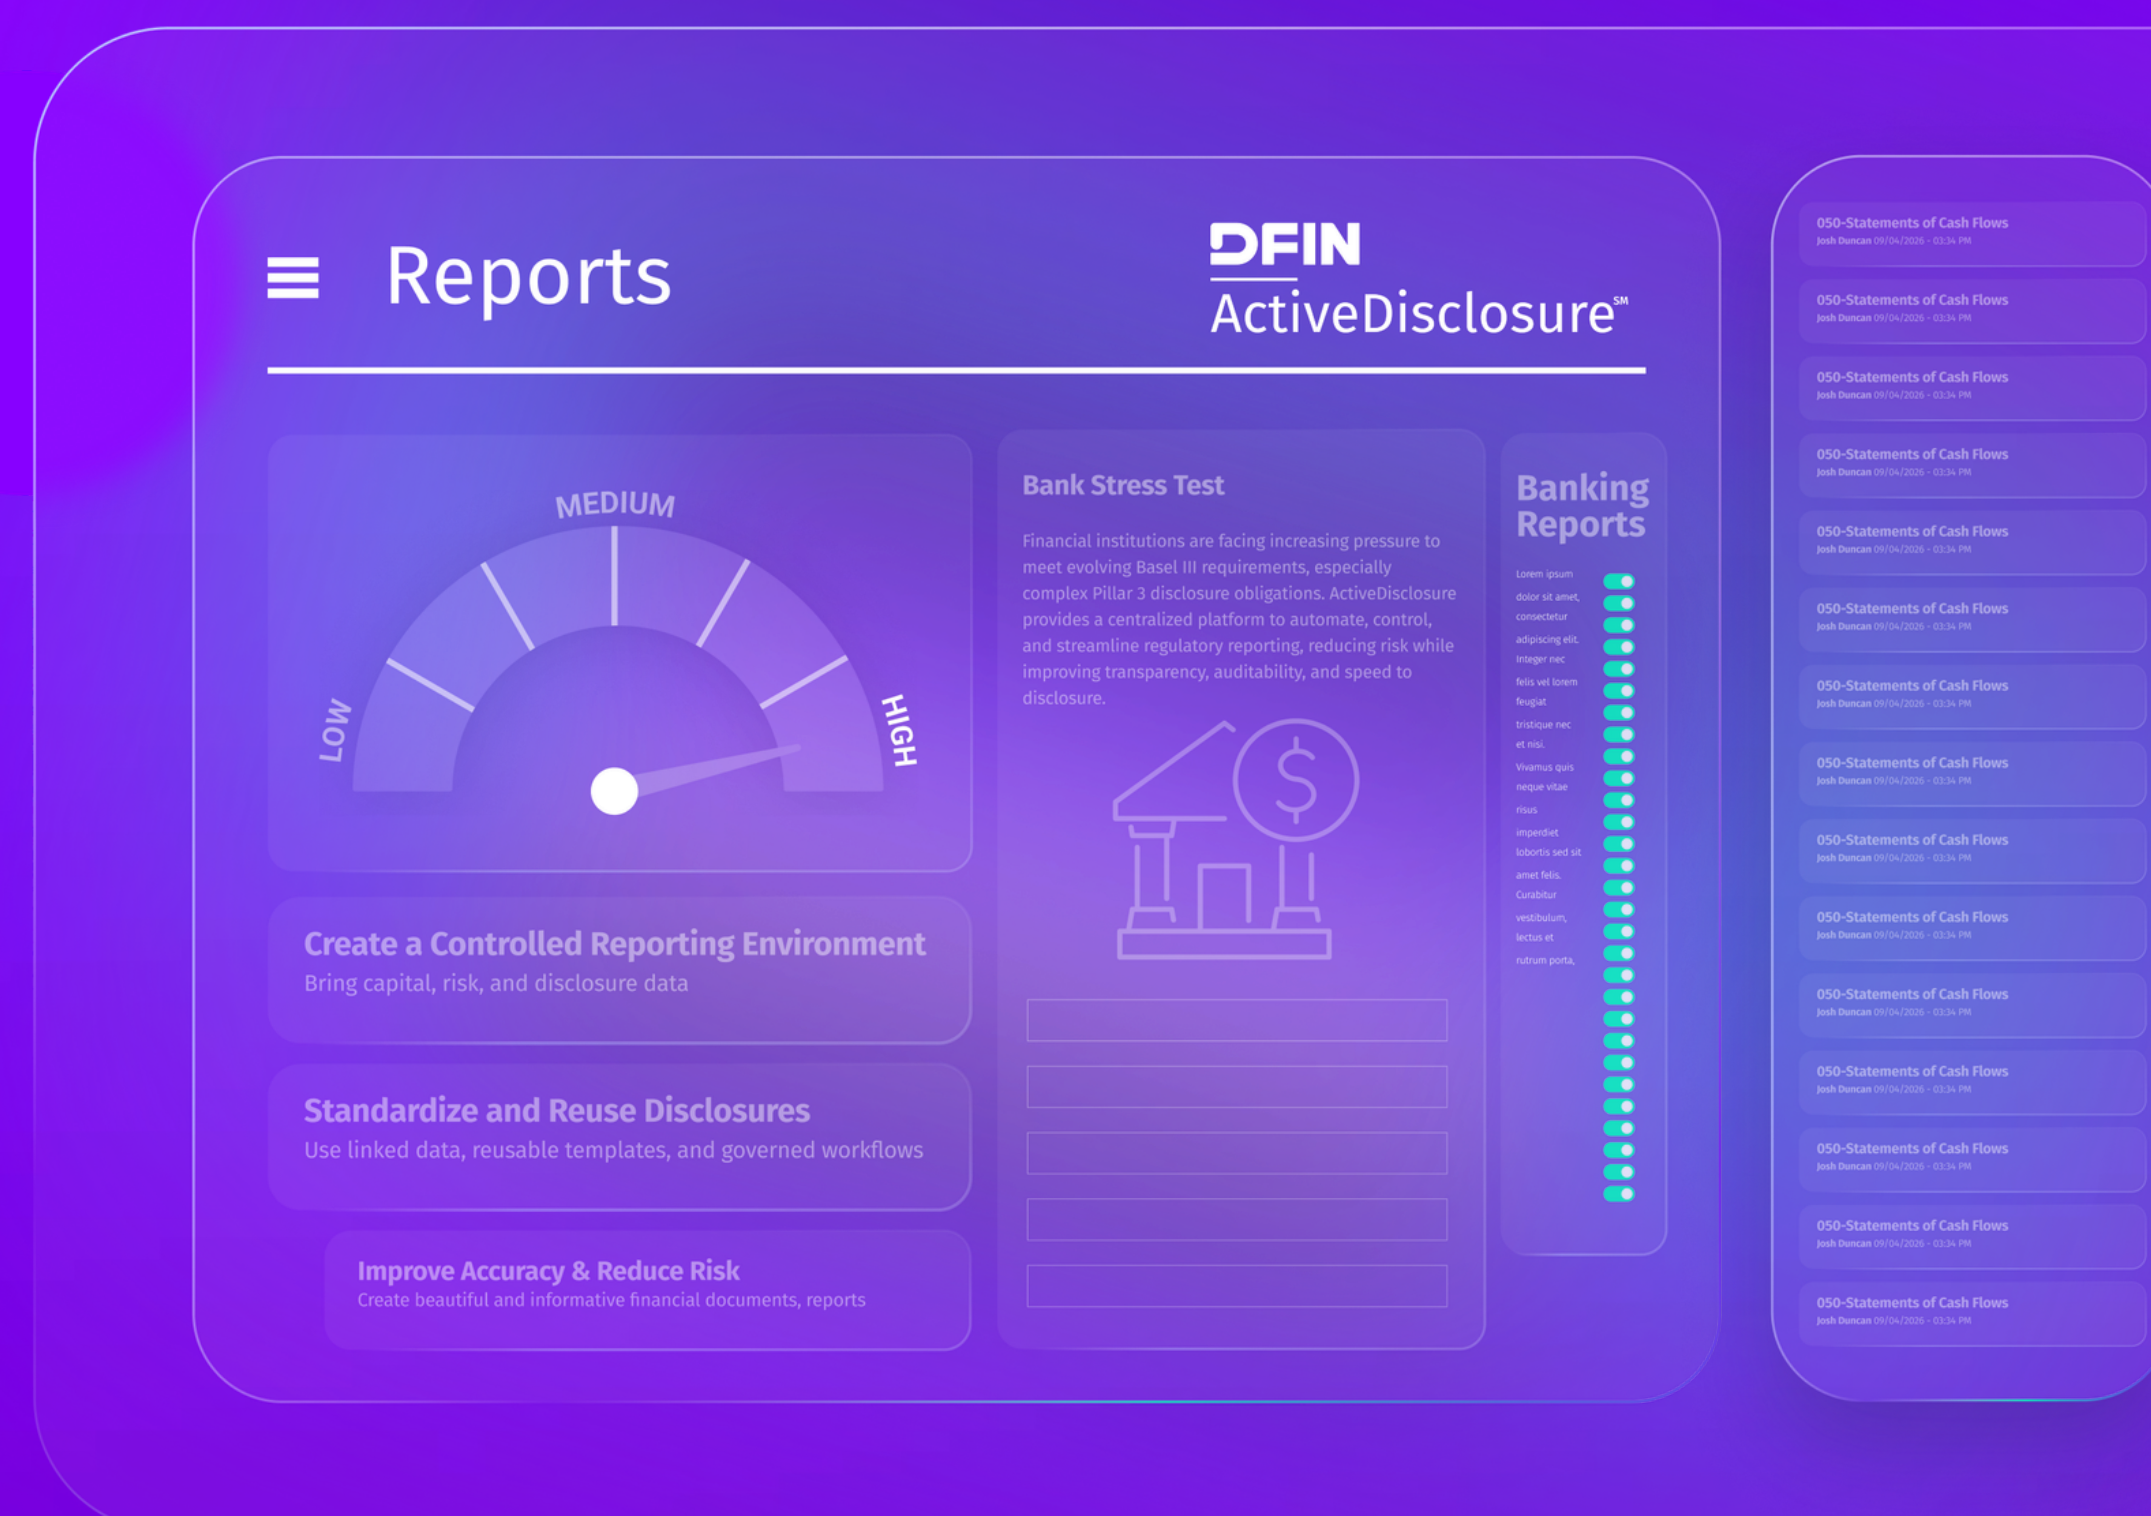

ACCELERATE REPORTING CYCLES

Reduce time spent on report preparation with automated workflows, real-time collaboration, and dynamic updates across all disclosure outputs.
